RAINBOW RESEARCH CORPORATION

170 WILBUR PLACE • BOHEMIA, NY 11716 www.Rainbowresearch.com • 1-800-722-9595 Henna is the only natural alternative to chemical hair colorings that are controversial to health considerations and harsh on the hair. Rainbow Henna is made from 100% natural plant powders. No dyes, additives, chemicals, preservatives, metallic salts or metals.

We choose only the finest botanicals from around the world to be used in our Hair Color.

The shade of Henna is reflected through the hair while enhancing your hair's natural color. The cuticle is smoothed by Henna's sealing action, giving hair a polished look by making the light reflect off providing shine. Regular use of Henna can texturize the hair, giving it extra body-this becomes more evident with each application.

AVAILABLE IN 13 SHADES: Dark Brown, Medium Brown, Light Brown, Red, Black, Mahogany, Burgundy, Copper, Sherry, Marigold Blonde, Blonde, Strawberry Blonde and Neutral

	Neutral							

Color results can slightly vary from person to person. It is recommended to do a test strand to see exact results. When appling to grey hair follow the recipies and instructions on our full color chart or website www.rainbowresearch.com. All Brown Shades contain Red which results in Warm Brown Tones.
